Overview

A cozy yet elegant cottage describes Eco Lodge perfectly. The accommodations make excellent use of good design and illustrate that you don't need massive rooms to create great functional living spaces.

The cottage sits towards the back of a large lot (three quarters of an acre) with amazing views towards the East, with Redonda and Montserrat situated at the centre of your view on the horizon. Since there is so much land available with fabulous views, this site lends itself well to the possibility of constructing a 'main house' whilst being able to live in the cottage. Or build another small cottage, or two, for visiting guests with everyone retaining their privacy.
