### OVERVIEW

Designed with the traditions of the West Indies in mind, this is a beautifully crafted Nevisian home on the secluded slopes of Golden Rock. Aptly named Treetops, it has a prominent position 950m above sea level affording stunning views of Nevis Peak.

This home was created to seamlessly blend indoor and outdoor living. The open plan design of Treetops combines a gorgeously light, bright interior with shaded dining and lounging spaces on a broad verandah that wraps around the house, reaching out to the fan palms and banana trees.

Set in thriving gardens where mature fruit trees and lush tropical plants abound, Treetops is the perfect place to hide away from the world and be soothed by the sounds of nature.

Recent upgrades to the main bathroom and the creation of two ensuite guest bedrooms downstairs make this property perfect for the discerning buyer.

In addition to the practical laundry room there are two recently created ensuite guest bedrooms on the ground floor. They have direct access to covered outdoor spaces and the gardens.
