

## VILLA SILA - ST. JAMES, NEVIS

VILLA SILA

### OVERVIEW

*Nestled in the lush green forest on Ridge Road, Jones Estate, on the north-western side of the island, Villa Sila, a Wil Morton design, boasts spectacular views of Oualie Bay and the nearby island of St. Kitts. The large veranda brings the outdoors into each room, flooding the bedroom, living area, and kitchen with natural light.*

*The modern and spacious kitchen contains stainless steel appliances, sleek storage, and a granite kitchen island that houses a sink and breakfast area.*

*The oversized openings from the living room onto the terrace extend the living area from the cozy interior with views of the sea and pool out onto the pool and outdoor dining area where you can enjoy the Caribbean breeze and colourful sunsets. Skylights over the pool and a sun lounge area next to it allow you to enjoy the sunshine without leaving home, though the beach is just minutes away.*

*The high ceilings and tiled floors in each room lend the entire house an open and bright quality.*
