

BLUE SERENITY - ST. JAMES, NEVIS

BLUE SERENITY

OVERVIEW

Blue Serenity captures everything that is beautiful about Nevis. Uniquely positioned to offer unrivalled views of both the sunrise over the Atlantic and the sunset over the Caribbean, it is a space that skilfully blends modern expectations with traditional Nevisian charm. The interior has been designed by Helene Robic lending it a chic French flair, with stylish red accents against the pale wood vaulted ceilings.

Outside there are a multitude of seating areas, with plenty of room to fan out around the pool. With equal thought given to leisure and pleasure, relaxing and entertaining, there are intimate spaces for private cocktail moments and flowing spaces for groups of friends. And leading out from the gym equipped with branded machines there is a separate dedicated yoga patio, perfect for early morning sun salutations.

A thoughtful addition to this three bedroom, three-and-a-half bathroom house is an office space that has a separate external entrance, ideal for ensuring work and home life are kept apart; clients and associates will feel more comfortable in a strictly business environment. The open-plan kitchen, dining and lounge area is stylish without losing any functionality, the Cafe Series appliances of sleek brushed steel an integral part of the sophisticated design.

The pool is invariably the focal point of any holiday home on Nevis, and from Blue Serenity's curved corner pool there are views across the ocean to a distant horizon – the perfect spot for daydreaming an afternoon away.

Set in a secluded, exclusive location, the house is overlooked by nothing but overlooks everything: the island's best swimming beach at Oualie is moments away, as is what some believe to be one of the world's finest hidden beaches, Lover's Beach. Blue Serenity is eminently accessible yet has the feel of privileged privacy: this is a house for people who appreciate attention to detail and character without compromise.

The pool is designed for champagne moments, the terrace for cocktails under a hammock moon. Here, the essence of the Caribbean has been captured and here, a love of Nevis can be nurtured and understood.
