STARDUST VILLA - ST. THOMAS LOWLAND,NEVIS

STARDUST VILLA

OVERVIEW

Stardust – the villa that is a sprinkle of magic on a tropical island. Caribbean design will always be about blending space and light with gentle breezes and a feeling of freedom, and Stardust exudes all of these classic hallmarks.

A family living space with a reaching, vaulted ceiling leads onto the wraparound verandah that in turn flows out to a pool, palm trees, and undisturbed views towards the green flash sunsets. Secluded without being isolated, Stardust offers privacy and peace in a modern villa that nods to traditional stylings with its gingerbread trim and bright splashes of colour.

With three ensuite bedrooms that all lead onto the verandah, Stardust is ideal for groups of friends or families looking for their own private setting before coming together on the pool deck for sunshine and sundowners.

Stardust has mature gardens bursting with bright bougainvillea and rustling palms, so those impatient to discover their perfect Caribbean idyll will find it ready and waiting. The villa comes complete with everything from dishwasher and ice-maker to sunloungers: a perfect day of traditional Nevisian 'liming' is staged, ready for the popping of a cork and the splashing of the pool.

AMENITIES

- A/C Throughout
- Bar-B-Q
- Ceiling Fan

- Country Views
- Hair Dryer
- Internet Access
- Kitchen
- Near Airport
